

14 Day Tasmania Circumnavigation Cruise

Hobart

From **\$19,995** pp twin share

Access to the best beaches in Tasmania

Spot the native wildlife at Maria Island

Cruise, hike, wildlife cruise and more!

***Earlybird special available for a limited time only!**

Description

Circumnavigate around Tasmania is style this summer!

Upon arrival in to Hobart you will be transferred to the Greg Mortimer ship where you will meet the expedition team . You will spend the next 14 days in the luxury of a balcony cabin.

Along your journey you will have the opportunity to zodiac cruise, hike, and beach walk.

Discover Bruny Island, Flinders Island, Freycinet Peninsula and so much more!

Itinerary

Day 1

Arrive Hobart

You're welcomed aboard the Greg Mortimer and shown your cabin before mandatory safety drills are carried out. Enjoy a welcome drink and meet fellow expeditioners at our voyage briefing this evening. Leaving Hobart, we cruise past the impressive cliffs of Cape Pillar and Tasman Island's dramatic dolerite columns rising from the sea.

Day 2

Bruny Island

From the comfort of your floating base camp, make your first forays to the picturesque Cloudy Bay at South Bruny Island. Enjoy picturesque coastal walks through flowering heathlands and eucalypt forests, a more leisurely stroll on long stretches of pristine sand, or a more active tramp up the headland for sweeping views of Cloudy Bay and beyond to the Southern Ranges. Later, as we sail southwards, keep an eye out on our portside for views of Cape Bruny's historic lighthouse.

Day 3

Recherche Bay New Harbour

At the extreme south-eastern corner of Tasmania, the idyll of Recherche Bay offered French explorer, Bruni D'Entrecasteaux, refuge, replenishment, and scientific discovery. Learn more about his exploits, including the well-documented, amicable encounters and mutual observation between the expedition members and the indigenous Lylequonny people.

Day 4

Recherche Bay New Harbour

Enjoy a hike towards the extreme southern tip of Tasmania or towards Fishers Point past the impressive bronze whale sculpture that commemorates the area's early whaling history. Having rounded South East Cape, experience untamed wilderness of Southwest National Park from the shores of New Harbour with various walking and Zodiac-cruising options. Perhaps explore a short section of the famed South Coast track, or simply revel in the isolation and wildness of this remote and windswept shores.

Day 5

At Sea

From the comfort of the 'mother ship', enjoy a ship cruise at the Maatsuyker Island Group. Spy Australia's most southerly lighthouse at Maatsuyker Island, and delight in the majesty of soaring shy albatross in the skies above Mewstone Island before setting sail up Tassie's wild west coast.

Day 6

Hunter Island Group

Often described as a 'coastal wonderland', the impressive sea-cliffs, pristine beaches and sand dunes, sheltered lagoons and tidal inlets of the remote Hunter Island group provide an exciting backdrop to your adventures. The islands were named after John Hunter (Governor of the Colony of New South Wales) by Flinders on the first recorded circumnavigation of Tasmania in 1798; although the islands show evidence of over 23,000 years of continuous occupation by local Aboriginal people. The islands are a major breeding ground for a range of birds, including a number of threatened species, including the orange-bellied and swift parrots, white-bellied sea eagle, shy albatross, Tasmanian wedge-tailed eagle and fairy prion. As part of our explorations, we plan to sail along the steep cliffs of Albatross Island – aptly named for its 5,000 breeding pairs (around 40 percent of the world's population) of shy albatross. If Australasian gannets are more your style, delight in the sight of over 12,000 pairs jostling for space on nearby Black Pyramid Rock Nature Reserve.

Day 7

Kent Island Group

Marvel at the mystique of the far-flung Kent Islands – often missed on conventional maps – and experience its rich natural and human history. This cluster of three main islands and four smaller islets comprise Tassie's northernmost national park. Discover the bountiful, nutrient-rich waters created by the convergence of three major ocean currents, which help feed Australia's largest fur seal colony.

Day 8

Kent Island Group

Scan the shorelines and skies for sooty oystercatchers, short-tailed shearwaters, petrels and prions; contemplate the looming granite lighthouse; and discover stories of sealers, sailors and shipwrecks in the original lightkeeper's cottage (the oldest in Australia, and now museum) run by the islands' only two inhabitants.

Day 9

Flinders Island

Flinders Island – called Great Island until it was renamed in the early 1800s after explorer Matthew Flinders – is the largest of Tasmania’s islands and home to Strzelecki National Park. The island offers sapphire waters, untouched beaches, a rich variety of flora and fauna, rocky ridges and towering peaks as a backdrop to your hiking, paddling or underwater adventures.

Day 10

Flinders Island

Energetic hikers may like to scale the granitic beauties of the Strzelecki Peaks to experience spectacular vistas, while strollers might enjoy a shorter meander through shaded casuarina woodlands and coastal heath to secluded bays.

Day 11

Freycinet Peninsula

The striking scenery of Freycinet Peninsula tempts you for another day of discovery, whether you hike its towering pink granite peaks for a spectacular view, paddle its iridescent-blue waters, or beachcomb a pristine white beach peppered with orange lichen-covered boulders. The surrounding wilderness is also alive with flora and fauna. On your adventures, keep an eye out for white-breasted sea eagles soaring in the skies above, Bennett’s wallabies lazing under a she-oak, the local pod of bottle-nose dolphins, or perhaps one of the short-beaked echidnas that are sometimes seen foraging for ants in daylight hours. Weather permitting, we may also visit the nearby Schouten Island group, where gangs of fur seals can be seen vying for their favourite rocky resting place.

Day 12

Maria Island

Known as Tasmania’s ‘Noah’s Ark’, Maria Island is home to an abundance of native wildlife including Bennett’s wallabies, common wombats, and rufous-bellied pademelons; as well as conservation sanctuary to a number of introduced species including the Tasmanian devil. The island is also considered one of the best places for bird watching, with a variety that includes all but one of Tassie’s endemic bird species. In addition to its natural history, the island has a rich human history stretching back over 40,000 years. The Puthikwilayti people of the Oyster Bay tribe were original custodians of the land and surrounding waters, which was later visited by European explorers, and exploited by sealers and whalers. Convict settlements, failed commercial ventures, and an eventual National Park designation are also part of the island’s antiquities.

Day 13

Maria Island

Whether you choose to explore its secluded bays and beaches, snorkel its clear waters, delight in its wildlife, or stretch your legs on a range of hiking options – through tall eucalypt forests, along exquisite coastlines, or upwards to take in the island’s stunning landscapes from its peaks - Maria Island has something special for everyone. Back on board and as we set sail for Hobart, toast your adventures and celebrate with friends – both new and old – at our Captain’s Farewell Dinner.

Day 14

Disembark Hobart

In Hobart, farewell the crew, expedition team, and fellow travelers before your transfer to the airport or your hotel accommodation.

Inclusions & Exclusions
